

Run for PKD

Join us as we race to the finish line for a cure!

By taking part in the Run for PKD on one of our official teams, or participating in an endurance event in your community, you can help bring us closer to a treatment and cure for PKD.

About PKD

Polycystic kidney disease (PKD) is one of the most common, life-threatening genetic diseases. It affects 600,000 Americans and 12.5 million children and adults around the world.

Nationwide Events

Each year, Run for PKD teams takes part in exciting, high-profile races across the country, raising much-needed funds and awareness for PKD. While locations change from year to year, recent highlights include:

- Bank of America Chicago Marathon
- Atlanta Marathon and Half Marathon
- Disney World Marathon and Half Marathon
- ING New York City Marathon
